

Dear FCC,

Our democracy is at risk, and I do not approve of your proposal to allow greater concentration of media control to corporate conglomerates. Already the quality of news and information in this country is highly questionable. Big corporate media does not speak for me or the majority of other smart and critical thinking Americans in this country. Please do not lift the ban on cross-ownership of the media. Now more than ever, striving for diversity of voice and opinion, not homogenization, is vital for a healthy and thriving democracy.

Sincerely,

Dawn Weber
